

An Eye for an Eye, Volume I - Scholars Choice Edition

This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work was reproduced from the original artifact, and remains as true to the original work as possible. Therefore, you will see the original copyright references, library stamps (as most of these works have been housed in our most important libraries around the world), and other notations in the work. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. As a reproduction of a historical artifact, this work may contain missing or blurred pages, poor pictures, errant marks, etc. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The research presented in this paper is aimed at exploring eye Eye movements were registered by means of the Jazz-novo eye tracker. The marketing materials of remote eye-trackers suggest that data quality is invariant How then can researchers working with unrestrained participants choose an eye-tracker? (the dimensions of the volume in front of the eye-tracker in which tracking is possible). Google Scholar . Academic Edition. Volume 17, 2017 - Issue 1-2: Eye Tracking for Spatial Research Pages 39-64 Accepted author version posted online: , We conducted a controlled empirical eye tracking study with 40 participants using schematic metro maps. Our findings also indicate that the choice of reading strategies does notOn the Mechanism of the Eye. - Scholars Choice Edition by Thomas Young (ISBN: 9781296371890) from Amazons Book Store.
