myITcertificationlabs is an easy-to-use exam preparation service that assesses student readiness and then provides a personalized study plan that provides exactly what each student needs to know to pass their next certification exam. The web-based service has a comprehensive database of hundreds of exam questions that are used to assess student knowledge, provide feedback on areas that require further study, and allow for robust practice experiences to improve class performance and certification exam results. The MyLab environment allows instructors to interact with students, communicating learning goals, scheduling projects, and assessing each individual student for areas of competence and need. THE MYLAB PRODUCT IS INTENDED FOR CLASSROOM USE IN AN INSTRUCTOR MEDIATED ENVIRONMENT. THE MYLAB FUNCTIONALITY WILL NOT FUNCTION IN A SELF STUDY ENVIRONMENT. This version of the mylab includes over 1800 review questions and over eight hours of video.
